A Typical Soviet Bread Truck

Projection is a technique used by propagandists to shift the focus of blame onto their opponents. In the case of the Soviet Union, they often accused their enemies of the crimes that they themselves were committing. One example is the infamous 'holocaust gas chambers' which, to this day, is used for guilt propaganda against Germany. However, in the case of Auschwitz (Oświęcim), the Soviets ordered a chimney to be built after the war, and in Eastern Europe, they spread stories of Jews being made into soap that were later disproved. Aleksandr Solzhenitsyn noted that it was the Soviets who were the originators of gas chambers in his writings:

"From the astonishing disclosure in 1990 we learned that the famous mobile gas chambers were invented, as it turns out, not by Hitler during the World War II, but in the Soviet NKVD in 1937 by Isai Davidovich Berg, the head of the administrative and maintenance section of the NKVD of Moscow Oblast… I.D. Berg was entrusted with carrying out the sentences of the "troika" of the NKVD of Moscow Oblast— the executioners became unable to cope with the sheer number of executions. Then they invented a time-saving method: the victims were stripped naked, tied, mouths plugged, and thrown into a closed truck, outwardly disguised as a bread truck. On the road the exhaust fumes were redirected into the prisoner-carrying compartment, and by the time the van arrived to the burial ditch, the prisoners were 'ready.' (Well, Berg himself was shot in 1939, not for those evil deeds, of course, but for 'the anti-Soviet conspiracy'" (Solzhenitsyn, 2002). The photo above is of a typical Soviet bread truck.

Belyi says:

And how do you get rid of all those bodies when fuel is in short supply and to get to the six gazillion figure, you'd need to work day and night for years?

Exactly, it's a ludicrous narrative without substantial evidence. It's just an assertion…

Yes of course it is Pete, Stalin's biggest kill was through starvation in the Ukraine. That is what the are endeavouring to do to us, by removing our food supplies!

Stalin: Another massive fake.

http://mileswmathis.com/stalin.pdf

His photo analysis is damning

Stalin means Man of Steel. But his surname was really Dzhugashvili. So another "Soviet" with an alias. All well known ones used fake names, Lenin, Trotsky, Stalin and more I expect. All were Jews too, not one of them a real Russian….

Quite true Pete. I understand that Starlin's Russian or more properly Georgian name equates to Jewson, he was the result of his mother's affair with a Rothschild, who was looking after his oil interests in Bachu!

From the start of the Mathis paper:

"We are told Stalin's real surname was Dzhugashvili. Do me a favor and try to say it out loud. What did you hear? Something like Jew-gash-vili? No, it can't be that easy, can it? Well, if you don't believe me, go to Wikipedia, where they conveniently spell it Jughashvili. That is how much they think of your intelligence. It is called hiding in plain sight. Again, that was Ju-gash-vili.

Of course Stalin's genealogy is nearly completely scrubbed at Geni, the only clue we get being that his maternal grandmother was a Chomezurashvili. Which looks faked. We can probably drop the fake ending to get Chomez, a variant of Gomez, which is also a Jewish name. The oldest Jewish residence in the US is the Gomez house. As we saw in my paper on Philip III the Bold, the Gomez name was originally Gometz, and they were Counts of Troyes and Vexin back to the time of Charlemagne.
Before that they came from the East, in the vicinity of Armenia. So they are part of the family that has been ruling Europe since the beginning"

Would that include that Rothschilds? I expect so….

Quite right Belyi, but they like to say it was the "evil" Germans who invented gas chambers!!!
